AQUARION LIFTS WATER RESTRICTIONS

WATER RESTRICTIONS LIFTED IN HINGHAM, HULL, NORTH COHASSET, MILLBURY, AND OXFORD ON OCTOBER 5, 2010.

Aquarion Water Company announced the lifting of the Water Restrictions that were in effect since early July. According to Robert Roland, Aquarion's Director of Operations, the water restrictions were put into effect the first week of July as a result of the higher than normal daily water demands and the extended hot and dry weather conditions.

Roland said, "Aquarion would like to thank our customers for their support in complying with the restrictions, which reduced the daily water demand by millions of gallons of water per day in our service area."

"We also strongly encourage our customers to continue to use water wisely by utilizing good conservation practices," Roland added, "Conservation tips can be found on our website at www.aquarionwater.com or by contacting our customer service department at 1-800-928-3734."
