

***WATER MAIN/ HYDRANT
FLUSHING***

Hingham, MA

Beginning October 14, 2010 (M-F 8am-4pm)
and continuing through mid November 2010.

Water main/hydrant flushing allows us to eliminate or expel sediments and/or other solids that might collect in the water mains. Flushing will improve water quality and fire flows.

There may be some temporary incidents of discolored, brownish tap water. This discoloration results from the temporary disturbance of the water flow, which disrupts naturally occurring minerals that settle in water mains. If this occurs please run cold water until it clears.

If you notice discolored water while flushing is occurring in your area, delay doing laundry until the water is clear.

Aquarion Water Company advises customers to store tap water in advance for drinking and cooking in the event that discoloration occurs.

Hydrant Flushing will start at Main St. near South Elementary School and work out toward the town lines. This schedule is subject to change. Flushing signage will be placed daily in the area of flushing.

If you have any questions please contact Aquarion's Customer Service Department at 1.800.928.3734, or visit our website at: www.aquarionwater.com.
